

WELDCUBE PREMIUM RELEASE 2.4

RELEASE DESCRIPTION

TABLE OF CONTENTS

1	Overview: new functions					
2	General	4				
2.1	Adjustment of menu text	4				
2.2	Supporting Central User Management	4				
3	Data interfaces / file export	5				
3.1	Extension of file export: gas consumption	5				
4	Administration	5				
4.1	Changed order in the "WeldCube" menu item	5				
4.2	Activating Central User Management	5				

1 OVERVIEW: NEW FUNCTIONS

Release 2.4 provides some changes and enhancements for WeldCube Premium. Prerequisite for using release 2.4 with TPS/i is **TPS/i** firmware version 2.1.0 or higher.

The following list provides an overview of all news / changes functions with release2.4:

- / General
 - / Adjustment of menu text
 - / Supporting Central User Management
- / Data interfaces / file export
 - / Extension of file export: gas consumption
- / Administration (configuration)
 - / Changed order in the "WeldCube" menu item
 - / Activating Central User Management

IMPORTANT:

To use WeldCube Premium with Central User Management, an update to release 2.4 is required.

2 GENERAL

2.1 Adjustment of menu text

The previous main menu item "Configuration" has been changed to "Administration":

2.2 Supporting Central User Management

With WeldCube Premium Release 2.4, the use of Central User Management is supported as soon as the function has been activated in the WeldCube Premium application (see 4.2).

What is Central User Management?

3 DATA INTERFACES / FILE EXPORT

3.1 Extension of file export: gas consumption

From now on, the file export will have...

- / ...the gas consumption per weld as output in all formats (CSV, XML, JSON).
- / ...the gas consumption per section as output in the formats XML and JSON.

4 ADMINISTRATION

4.1 Changed order in the "WeldCube" menu item

The order of the selection options of the administration submenu "WeldCube" was changed. Frequently used items are now displayed first:

Previous selection:					Newly ranked selection:					
Materials 🗸	WeldCube 🗸	User 🗸	Syst			Materials 🗸	WeldCube 🗸	User▼	Syst	
	Updates						Welding file ex	port		
	Web API settings					Part report export				
	Notifications						Statistics repo			
	Backup						Web API settings			
	Welding file ex	port					Notifications			
	Part report export						Updates	Updates		
	Restore				Backup					
	Automatic clea	anup					Restore			
	Statistics repo	orts spot	weldi				Automatic clea	anup		

4.2 Activating Central User Management

In order to manage WeldCube Premium users via Central User Management, this function must first be activated in all affected WeldCube Premium installations at the customer.

To do so, select the new entry "CENTRUM¹" under "User" in the administration menu:

	Dashboard		Machines -	Parts 🕶	Materials 🕶	WeldCube 🗸	User •	System 🗸	About
	Machines						User adr User role	ministration	
ø	Parts								
	Arc welds	Data collection					CENTRU	м	
8	 Spot welds 	On Synchronize TPS/MW/TT machine times On Propagate time server to supported machines							
<u> </u>	Statistics								

¹ CENTRUM = abbreviation for CENTRal User Management

Central User Management is then activated via the provided button (1) and the URL of the customer's existing Central User Management server is entered(2):

Dashboard		Machines -	Parts 🕶	Materials •	WeldCube 🗸	User∓	System 🗸	About		
Machines										
Parts		CENTRAL USER MANAGMENT								
Arc welds	Off Enabled	Server U	RL	m mycompany c				4		
Spot welds		API keys						╡		
Statistics								3		
🚀 WeldOptimizer™	Cancel Save							-		

To complete the activation of Central User Management, Central User Management must be opened in an **additional** browser window. Within the "configuration menu" of Central User Management, the "API key" given under "API" must be copied and pasted into the provided field within the WeldCube Premium application (3 – see screenshot above). Finally save the settings.

Central User Management - where to find the API key:

F	Central User Ma	anagement 1.1.2-alpha+626e580645		
*	Users		Groups	API
	User roles			
: []	Assignments	BxirUoQplUOVEqbszC3jTtlQaELGzXyspGiZczUDsTY=	0	
	Clients	Go to API		
	History			
\$	Configuration			

NOTE:

With Central User Management, it is only possible to make assignments for WeldCube Premium User with existing PWD.
