## **OVERSIZING FRONIUS SYMO GEN24 PLUS**

### **Fronius International GmbH**

hereby confirms that the Fronius inverters

- / **Fronius Symo GEN24 6.0 Plus**
- / **Fronius Symo GEN24 8.0 Plus**
- / **Fronius Symo GEN24 10.0 Plus**

can be oversized 50% above the rated nameplate capacity without voiding the manufacturer's warranty, provided that

- / String configuration adheres to the voltage and current window guidelines published in the operation manual
- / The open circuit voltage of the PV generator does not exceed the maximum input voltage of the inverter under any circumstances (temperature, irradiance)
- / The maximum DC array short circuit current must not exceed 1,5 times the maximum DC input current of the inverter
