

PathFinder

ADVANTAGES

SAVE TIME & MONEY

- Up to **90 % less production downtime**
- Parts programming on a PC without interrupting ongoing welding cycles
- Significantly faster programming due to intelligent functions

SIMULATE & OPTIMIZE

- Accurate representation of the physical plant
- Automatic collision detection
- Precise determination of cycle times
- Easy process optimization

COMPATIBLE

- Program code generation compatible to the most common robot brands
- Low variance in the operation of different robot systems
- Wide range of compatible CAD formats

Virtual twin

PERFECT MATCH

between virtual and physical system

PROCESS SIMULATION

Realistic simulation of the complete process flow, optimal for process optimization and determination of cycle times

FUNCTIONS

AUTO SEAM

Auto-detection of weld seams

TORCH ANGLES

Auto-detection of weld seams

PATH CLONING

Copying, linking, grouping, mirroring of welding paths

PATH ADJUSTMENT

Manual fine-adjustment of the generated welding path

CAD IMPORT

Import parts as 3D CAD model

MULTI-PASS

Multi-pass welding and easy layer creation

EXTERNAL ROBOT AXES

Interaction with external robot axes (positioners, etc.)

SIMULATION

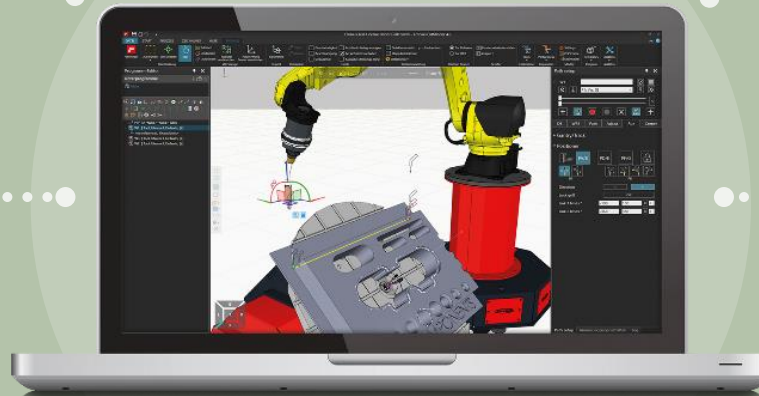

Determination of cycle time, automatic collision detection, ...

AUTO SEARCH

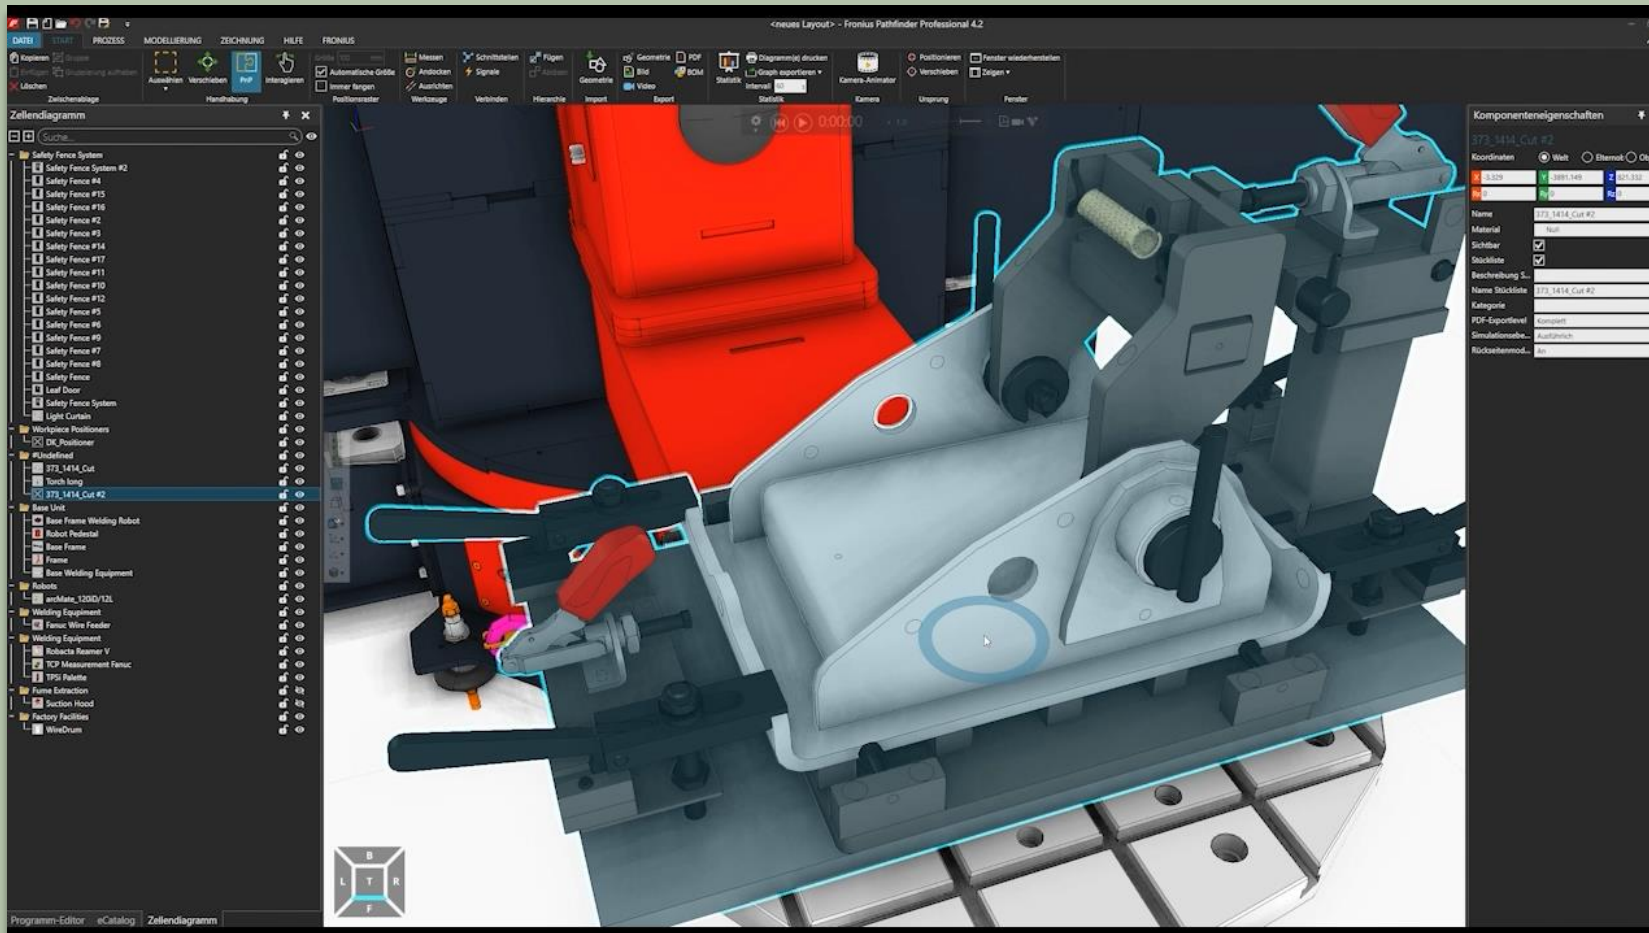

Auto. search-path creation

POST PROCESSING

Program code generation for the most common robot brands

3D CAD import

CAD data import

- Import parts data as 3D CAD model
- Support of the most popular file formats

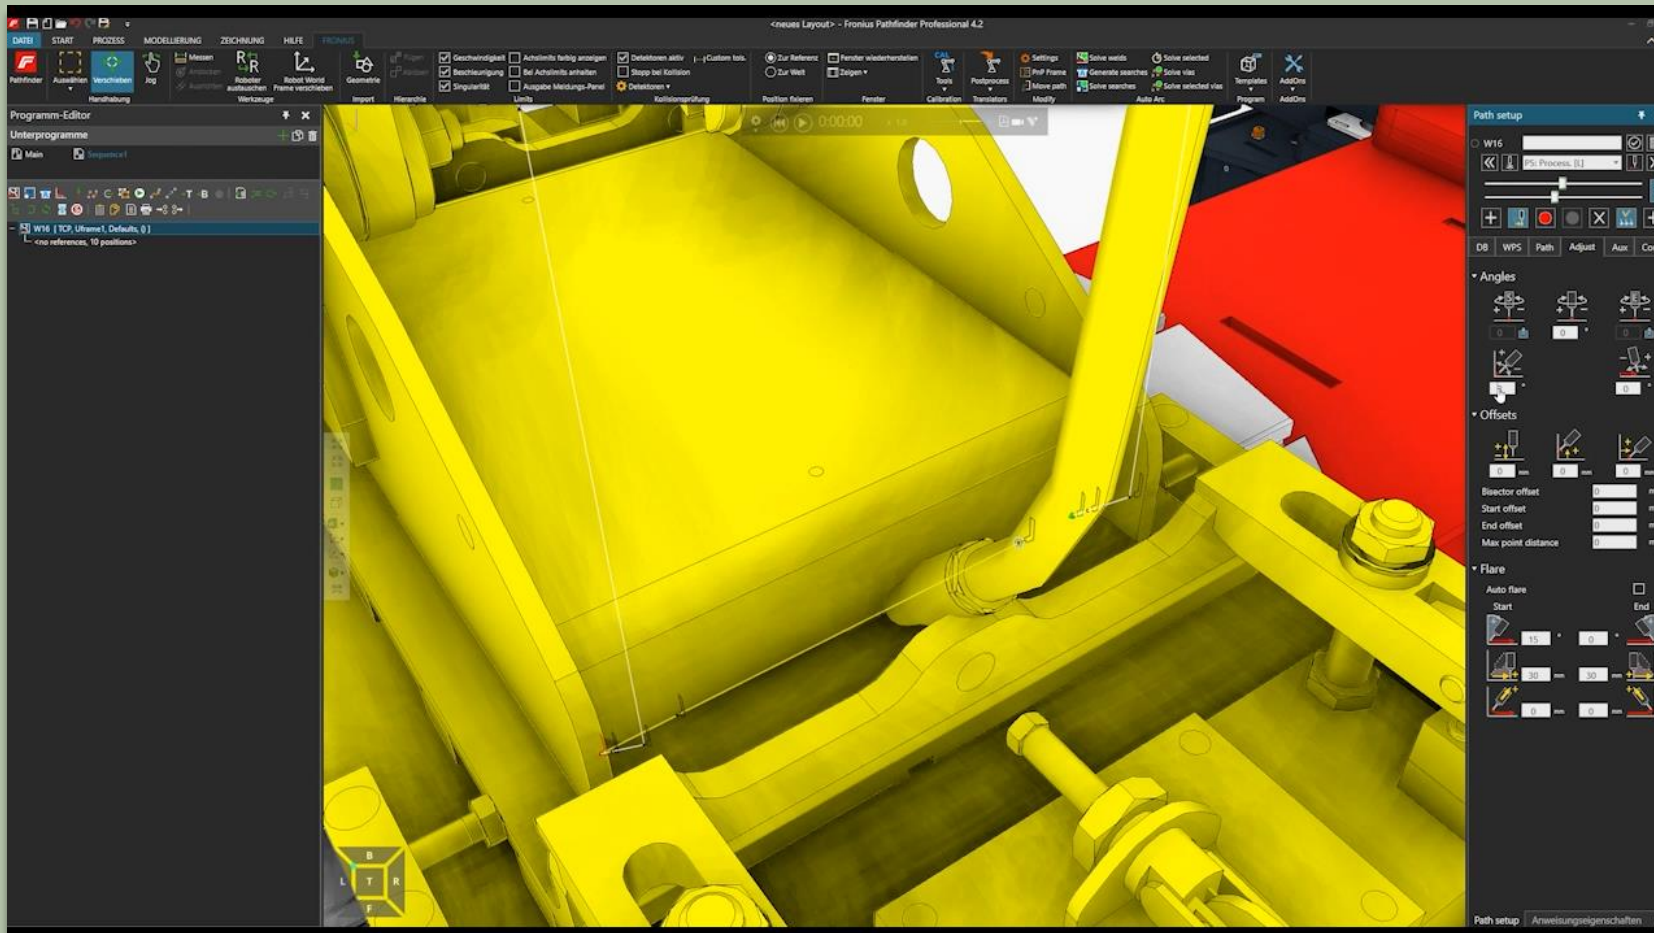

Auto seam

Auto seam

- Automatic seam detection
- Multirun management
- Path-check: Check of axis limits and singularity issues

Collision detection

Collision detection

- Automatic detection of collisions and axis limits
- Easy adjustment / correction of the torch angle

Simulation

Simulation

- Effective and fast simulation of the created welding program
- Determination of cycle times
- Offline process optimization

Generate / export robot programs

COMPATIBLE WITH THE MOST COMMON ROBOT BRANDS

ABB

YASKAWA
MOTOMAN ROBOTICS

KUKA

FANUC
Robotics

igm

OTC
DAIHEN Corporation

CLOOS
Weld your way.

REIS
REIS ROBOTICS

Kawasaki
Robotics

NACHI

Scope of delivery

FRONIUS PATHFINDER PACKAGE

VIRTUAL TWIN

We create an accurate 3D model in the simulation environment

CALIBRATION

Measuring and matching the virtual model with the real system on site

SOFTWARE LICENCE

- Fronius Pathfinder 4.5 standalone
- Fronius Pathfinder 4.5 server

TRAINING & SERVICE

- User training
- Functional test of software and calibration incl. final welding test
