- Low Carbon Workspaces
- Priority Waste
- RenEnergy
- Solar Energy UK
- Solarwatt

Entertainment throughout the day

**Register to attend at**  
**[www.froniusopenhouse.co.uk](http://www.froniusopenhouse.co.uk)**

A full programme of seminars can be found online.

Full freedom to unleash  
your welding potential.

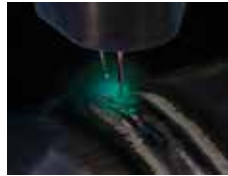

## iWave

TIG welding without compromise. Maximum control and intuitive handling. Wide range of welding challenges to master? The iWave Multiprocess PRO comes with all MIG/MAG process variants.

## TransSteel Pulse

30% faster welding and  
70% less rework with  
Pulse. See the difference!

## TPS/i Twin & other robotic systems

Tandem welding with the very best results. Particularly beneficial for longer seams on thick sheets.

## MagicCleaner

Optimum reworking of TIG  
weld seams and stainless steel  
surfaces in a single step, with  
added printing capabilities.

Plus much more including our new Flex Drive solution  
and automated systems: [www.froniusopenhouse.co.uk](http://www.froniusopenhouse.co.uk)

We can support you on your way to more sustainable, electric intralogistics with our smart and powerful charging technology.

## Easy mastering of heavy-duty applications

Our Selectiva 4.0 portfolio has now been expanded to include 96V and 120V models specifically designed for heavy applications.

## Charge & Connect

Go beyond the limits of conventional charging. Real-time data on the availability and status of your forklift fleet increasing performance and efficiency of your intralogistics processes.

With simple Plug and Charge: the charger automatically detects the voltage and state of battery.

## Efficient lithium-ION chargers

## Fronius Tauro. Designed to perform.

Designed to withstand direct sunlight and high temperatures: its double-walled housing and active cooling give the Fronius Tauro a long service life that will always deliver top performance whilst being quick to install and efficient to maintain.

Get under the covers with the Tauro during our interactive seminar!

Participate in our hour long session with **Kevin McCann** from trade association **Solar Energy UK** with an overview of the road to 2030.

Solarwatt and BYD will talk about their complementary solutions and Fronius International will present our green hydrogen solution, SolHub. We will demonstrate the new EV charging solution, Wattpilot, and also hold a drop-in technical Q&A session.

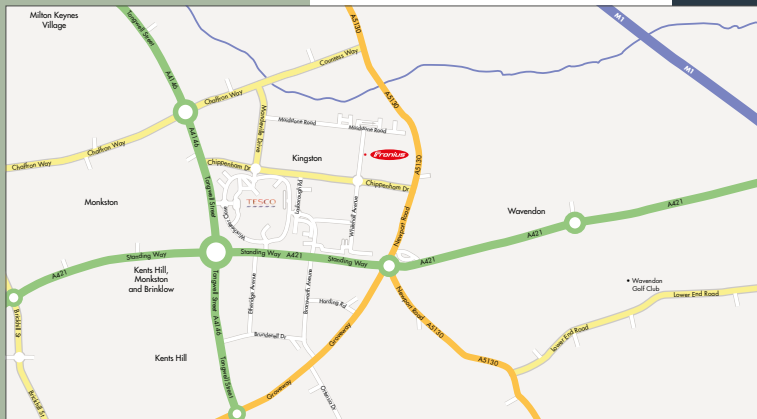

## Attend our Solar Surgery

The large-scale PV system solution.

# Getting here

**SATNAV: MK10 OBD**

## BY TRAIN

Fronius UK is approximately 15 minutes by taxi from Central Milton Keynes train station. Frequent trains are available to London Euston as well as the rest of the UK.

## CAR PARKING

There is car parking available on site, however, we anticipate this filling very quickly, so we ask that you car share with colleagues wherever possible.

## TICKETS

Please bring your ticket with you, either on your phone or printed out, as this will speed up entry to the event.

In order that we can cater for everybody, please let us know if you intend to visit. You can register for the event at:

[www.froniusopenhouse.co.uk](http://www.froniusopenhouse.co.uk)

Fronius UK Ltd, Kingston, Milton Keynes, MK10 OBD
