

RENT A SYSTEM

/ The individual, flexible way to rent Fronius welding systems

/ Want to stay flexible and keep all your options open? Then Fronius' rental programme is just the right thing for you! MMA, TIG, MIG/MAG – with "Rent a System" you can rent any Fronius welding system you need. This gives you the adaptability to handle special orders, and freedom of manoeuvre when you reach your own capacity limits. The systems are all superbly well maintained, ensuring safe and reliable operation. The rental programme covers manual welding systems, robot welding systems and automated installations. Just ask your Fronius sales adviser!

FREE RENTAL

/ The blind date: Want to get to know a welding system and test-drive it for a short while? In the "free rental" option, Fronius provides you with a demo rental system for a previously agreed period. Free of charge and with no strings attached.

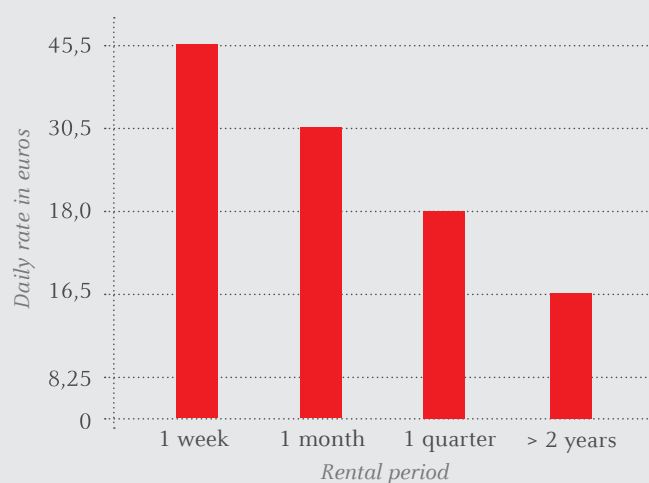

RENTAL

/ The fair, individually tailored way to rent a welding system for a certain period of time. The longer the rental period, the lower the daily rental charge. You can choose whatever rental duration is best for your individual needs, and either lengthen or shorten it by arrangement with your Fronius sales adviser. This makes you independent and flexible.

LONG-TERM RENTAL

/ A good partnership: for long-term projects and special orders, Fronius gives you the option of renting welding systems for several years at a time. In this case, the rental price is individually calculated for each customer. And of course, you still enjoy all the benefits of "Rent a System", with any repair costs being covered by the rental charge.

DAILY RATES, DEPENDING ON THE RENTAL DURATION, FOR A TPS 4000

- / Calculable rental costs, zero investment outlay
- / Immaculately maintained welding systems
- / Quality products that are technologically “state of the art”
- / Prompt supply and installation
- / Free replacement machine if a damage event occurs

/ High-tech on demand. The rental service for top-quality welding systems.

/ Fast answers to customers' questions.

RENTING A FRONIUS WELDING SYSTEM IS REALLY EASY.

1. Arrange a meeting with your Fronius sales adviser and define the ideal welding system for the challenge you need to tackle
2. If you wish, the rented welding system can be installed on your premises, and expert training given to your employees.
3. Invoices are raised periodically as agreed
4. At the end of the rental period, you send the welding system back to us. You can arrange with your Fronius sales adviser to lengthen or shorten the rental period as per your individual needs.

SERVICE INCLUDED

/ The rental charge covers all repair and servicing costs*). Your welding system is kept perfectly maintained, giving you maximum operational availability during the entire rental period. During servicing, you will be provided with a replacement unit free of charge.

*) Does not include the costs of repairing damage for which the user is to blame.

/ Perfect Welding / Solar Energy / Perfect Charging

WE HAVE THREE DIVISIONS AND ONE PASSION: SHIFTING THE LIMITS OF POSSIBILITY.

/ Whether welding technology, photovoltaics or battery charging technology – our goal is clearly defined: to be the innovation leader. With around 3,000 employees worldwide, we shift the limits of what's possible - our record of over 1,000 granted patents is testimony to this. While others progress step by step, we innovate in leaps and bounds. Just as we've always done. The responsible use of our resources forms the basis of our corporate policy.
