

SAFETY INSPECTION

PERSONAL PROTECTION AND PLANT SAFETY

SAFETY IN THE WORKPLACE

/ Preventive protective measures and safeguards for employees.

COMPLIANCE WITH STANDARDS

/ Compliance with international requirements when carrying out the safety inspection
/ EN 60974-4 in Europe
/ IEC 60974-4 outside Europe

AVOIDING DOWNTIME

/ A regular inspection of the welding system helps to prevent production losses.

NOTE: A combination of safety inspections and calibration saves time and money!
