

WELDCUBE

High savings potential in terms of costs and time

Safety and traceability

Intelligent analysis at the push of a button

Interconnectivity with Fronius welding systems

Seamless data backup

FUNCTIONS

COMPONENT MANAGEMENT

Ensures fully automated transparency and traceability at component level

USER MANAGEMENT

Unrestricted and customised creation of users, and their roles and authorisations

STATISTICS

Simple and individual evaluation of all documented data aided by intelligent filters

WELDING DATA DOCUMENTATION

Seamless recording of all set and actual values for each weld seam

DEVICE OVERVIEW AND MACHINE DETAILS

All welding systems and their components at a glance

JOB MANAGEMENT

Create, edit or allocate jobs centrally
