Laser & MIG/MAG

## Laser-Hybric

## Applications

- General Industry
- Battery trays
- Crane booms
- Automotive industry
- Large-scale series production
- Frames and axes

10 KW TPS/i Welding Head

4 KW/6 KW Ultrakompact

Fronius

10 KW Fillet Welding Head

High welding speed – up to 5 m/min

of filler metal

Lower heat input - less distortion

Good gap-bridging ability

Drastically reduced consumption

Deeper, narrower penetration
