

FRONIUS SOLAR.START

START-UP IN THREE STEPS.

The Fronius app helps installers to commission inverters quickly and easily. The new generation of inverters can be conveniently configured with an easy-to-use app on your own smart device.

The system is easy to set up in **just three steps**. This not only saves time on the job, but also ensures that the inverter is commissioned correctly.

3 STEPS

2 MINUTES

Step 1: Set up the network

/ Quickly integrate the inverter into an existing network.

Step 2: Set up the product

/ Effortlessly configure the device and additional components such as a Smart Meter, battery or the Ohmpilot.

Step 3: Register in Solar.web

/ Integration of the inverter into the Solar.web online monitoring tool.*

* Basis from which to analyse the PV system so as to provide data-based, personalised customer advice.
For more information, go to www.solarweb.com

The advantages at a glance:

- / Effortless start-up and product registration
- / Automatic connection to devices
- / Link to useful platforms (Solar.web / Solar.SOS, etc.)

/ Perfect Welding / Solar Energy / Perfect Charging

THREE BUSINESS UNITS, ONE GOAL: TO SET THE STANDARD THROUGH TECHNOLOGICAL ADVANCEMENT.

What began in 1945 as a one-man operation now sets technological standards in the fields of welding technology, photovoltaics and battery charging. Today, the company has around 5,440 employees worldwide and 1,264 patents for product development show the innovative spirit within the company. Sustainable development means for us to implement environmentally relevant and social aspects equally with economic factors. Our goal has remained constant throughout: to be the innovation leader.
